

Theme work: Investigation

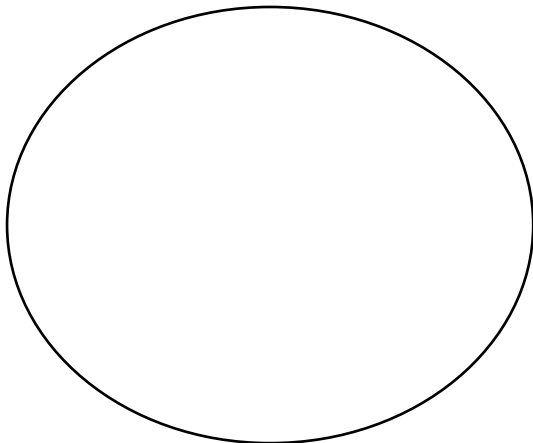

I would like you to find things that are living (natural) and things that are non-living (manmade)

- **Look out of your window or go outside.**
- **What can you see that is natural (living and growing)? Write or draw what you see.**
- **What can you see that is manmade (not living or growing) Write or draw what you see.**
- **Look out of different windows (upstairs and downstairs, to the front and to the back)**

You could do this in your books...

Natural and living

Man-made and not living
