

Team 1 Friday Family Fun – Friday 12th June

For today's family fun activity, we are inviting you to sit down together if you have time and to watch a film together.

If you can, can you choose a film that links to any learning you have completed since lock down began?

It might link to...

- Farms
- Animals
- Growing up
- Getting a job
- Habitats

Miss Davey's personal choice would be 'Matilda' as right at the beginning of the film it shows different stages of her childhood and how she grows up to the girl she is in the film/story. It is also my favourite film from when I was a child!

Mrs Williams' personal choice would be 'Happy Feet' because it shows both animals and habitats and it's a great family film!

Miss Coney's personal choice would be 'Babe' as it is set on a farm and has so many different animals...who speak!
