

Thursday

You are going to play a game today!

- You and your grown up will need your caterpillars and the 20 legs you have made.
- If you don't have a dice, take all the 2,3,4,5,6 cards from your pack of playing cards and place them face down.
- Choose someone to start.
- Either throw the dice or turn over a card and then place that number of legs onto your caterpillar.
- Continue to take turns to throw the dice or to turn over a card and put more legs on.
- The winner is the person who places all their legs onto the caterpillar first,

EXTENSION:

Each time you place legs onto your caterpillar, try to say the number sentence, for example,

I start by throwing the dice and roll a four, my number sentence will be "zero add four is four". On my next turn I throw a 2, my number sentence will be "four add two is six". Then I throw a six, my number sentence will be "six add six is twelve"
