

Friday, March 5th

Number Bonds to 10

Maths

1. Find 10 loose parts –paperclips/cubes/pebbles/counters
2. Draw a part/whole model on your paper. Like this:
3. Write the number 10 in the top circle.
4. Count out the 10 loose parts in to your part/whole model and explore the different ways they can show pairs of numbers to 10.
5. Record in numbers on your part/whole model like this:
6. Can you record all of your number bonds in the part/whole models?
