

Tuesday 9th Feb

Counting forwards and backwards to fifteen.

[Click here to join in the song](#)

Today we are going to be finding out about 3D shapes.

1. Rummage through your recycling and find some old tubes/lids/boxes.
2. Ask your child to make a model for a particular purpose, such as a bridge for the 3 Billy Goats or a new chair for baby bear.
3. Encourage them to tell you about their model. Which shapes were easy to fasten together? Which shapes were difficult to fasten together?

If you have completed this activity,
