

# Theme: Wednesday

## Feb 10th

Today we are going to make a Chinese mask!

All you need is a paper plate or a piece of paper cut in to a circle. You can copy the image on the left hand side or follow these instructions for an animal mask...

### Duck mask instructions

1. Cut your circle (and eye holes) on a piece of paper or cut out two eye holes in your paper plate.
2. Trace a triangle (beak) and glue it on to the mask.
3. Paint (or colour in) the mask yellow.
4. Glue a few feathers to the top of the mask or some colourful shapes.
